Re: Notification of Potentially Interested Party of EPA's Forthcoming Proposed Cleanup Plan
for the Shpack Superfund Site, Norton/Attleboro, Massachusetts

Dear Ms. Henig-Elona:

The United States Environmental Protection Agency ("EPA") is continuing to evaluate evidence in connection with its investigation of the Shpack Superfund Site, Norton/Attleboro, Massachusetts ("Site"). On June 7, 1990, EPA notified Swank, Inc. of its potential liability at this Site.

EPA is in the process of selecting a remedy for cleanup of the Site. Based upon information contained in title documents and site-related records, the Agency believes that Swank, Inc. may have a special interest in this Site. EPA's cleanup plan to address the contamination at the Site (referred to as a preferred alternative) will be summarized in a document known as the Proposed Plan. EPA will publish this document in the near future. To provide Swank, Inc. as well as the interested public with an opportunity to participate in the remedy selection process, EPA will mail Swank, Inc. a copy of the Proposed Plan when it is published. The Proposed Plan describes the Site, EPA's preferred remedy, and ways in which Swank, Inc. and the interested public may participate in the remedy selection process. Please refer to the enclosed flyer regarding the time and place of the informational meeting and the public hearing.

BUREAU 11.9
OFFICE 236750

Please direct any legal questions that you may have to Andrea Treece, of the Office of Environmental Stewardship at (617) 918-1540. All technical questions regarding the Site should be directed to David Lederer, EPA's Remedial Project Manager at (617) 918-1325.

Thank you for your attention to this very important matter.

Sincerely,
